His Excellency
The President

Republic of Poland

Dear Mr. Andrzej Duda

The Herstigte Nasionale Party of South Africa (HNP) is a political party that since its inception in 1969, has been fighting for the right and continued freedom of the Afrikaner people, who were also known earlier in the world as the Boerevolk.

We have warned since our foundation that the then progressive country, with a high employment rate, low inflation rate, flourishing economy and stable inter-ethnic relations, would follow the path of the rest of Africa if South Africa would be forced to be handed over to the then terrorist movement, the ANC and its like minded people.

In 1994 it did indeed happen.

We are grateful to you for helping to expose the current ANC Head of State, Cyril Ramaphosa, and his administration to the world for what they are: a bunch of incompetent rulers, who cannot even have basic paperwork in order and follow basic protocol if they want to travel through your country en route to Ukraine and Russia, supposedly to effect peace.

You have thus gained an idea of what the population of South Africa has to contend with.

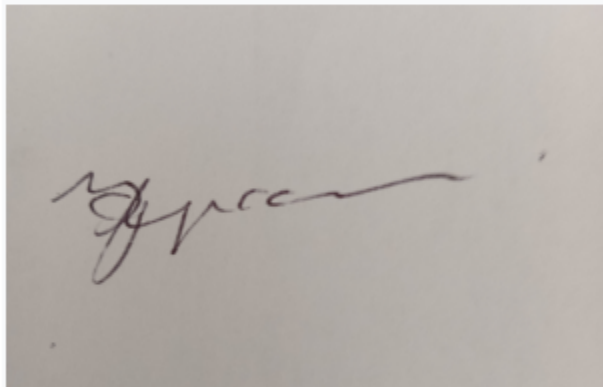

The incompetence and even arrogance, as when you were insulted as "racists" by the delegation's head of security, is what we, and especially we Afrikaners, have to deal with on a daily basis. This is the reason why so many of our highly educated people leave the country to find a dignified place to live elsewhere, rather than to remain under such a rotten and oppressive system.

The numerous attempts we have made to bring these malpractices and abuses to the world's attention did not yield much. The once prosperous South Africa has now become a poverty-stricken country, which has been robbed and looted by the ANC cadres who were posted everywhere, rather than allowing knowledgeable people to do their jobs. You experienced something like that upon their arrival in your country.

We thank you that you did not give in for the sake of some kind of political correctness, or for the sake of the typical African complaints, as if the world owed them something, but adhered to your policies, standards and procedures. By doing so, you have exposed the ANC government's ineptitude to the world in a much better way than that we could ever do.

Be assured, however, that the Afrikaner people did not let themselves be dragged down in this third world way of acting, and that we totally distance ourselves from this action.

Respectfully yours
